

7th anniversary of the day of life ascending international
Lima, October 1, 2025

Dear members,

We are very pleased, from Peru, to participate in this commemorative Day of Life Ascending at the international level.

Today, October 1, we celebrate the Day of Life Ascending International, a movement born 40 years ago in France and which brings together retired members from around the world.

We recall that during the 9th World Meeting, held in Santo Domingo (2018), with the participation of 46 countries from five continents, our dear brother, Gilberto Orlando Cáceres Castañeda (President of Peru at the time), presented the motion for the international celebration of Rising Life. This motion was seconded by the delegates from Latin America and the Caribbean, with the approval of the assembly and all participants. Thus, all countries can unite today, October 1st, to greet one another and emphasize the importance of faith in our God the Father.

Let us celebrate the 7th year, brothers and sisters!

Let us rejoice in the great value of our Movement throughout the world!

María Bertha Frassinetti La Serna
President of Vida Ascendente Perú
